## – Explanations:

### – GO Plus

- Go Plus product and its options can be used by maximum 16 users. Go Plus main package includes 1 user.
- Microsoft® SQL Server® 2012 R2/2014 Express Edition can be used as database with Go Plus main packages. Microsoft® SQL Server® 2012 R2/2014 Express Edition supports databases that have maximum 1 CPU, 1 GB memory and 10 GB size. Microsoft® SQL Server® 2012/2014 Runtime and Full Use can be purchased from Logo's authorized business partners.
- GO Plus Main Package, Stock (Invoice, Order, Costing, Dynamic Unit Equivalent Commodity Tracking), Accounting, Fixed Assets, Invoice, AR (Payment / Collection, Payment Plan), Demand Management, Check / Bond, Payment Transactions (Partially collection), Credit Card, Bank, Cash, Currency Tracking, Inflation Accounting, Additional Tax, Foreign Exchange Calculator, Trading Currency, the Table and Pivot Reports, Task Scheduler, Workflow provides Administrator Console and GO Webmaster modules. Upon purchase of the main package you will get 1 year LEM for free.
- User increases that are added onto basic packages individually or consecutively increases user number.  
Example: 3 users are obtained when "+2 users" increase is installed onto Go Plus main package. Then "+2 users" is installed on top in order to get 5 users. There is no need to buy any user increase if it is not specified in the list for the options that are used with the sets.
- LEM prices for GO Plus is determined by the number of users.  
LEM Price: Basic Fee + (Fee Per User x User Number)

### – Optional Modules

- Logo Retail:
  - Logo Retail is sold as a module and works integrated with Go Plus main package.
  - "Barcode Label Design and Printing" can be purchased separately.
- B2B and B2C Applications:
  - LogoConnect B2B module includes the integration functionalities from business to business. It gives services up to 5 companies on the same database. For more number of company requests, a project proposal should be given to Logo regional offices.
  - LogoConnect B2B works in local (data transfer is supported by user) or can be used by getting service from authorized Logo business partners (through Logo servers). While It is recommended to work locally when transferring data between same group companies, it is more efficient to work through Logo servers when having a disorganized branch structure or transferring data between 3rd parties.
- Please check the Vertical Solutions price list for more integrated solutions working with Go Plus. Vertical solutions are developed by Logo Solution Partners.

### – Navigator Smart

- Navigator Smart;
  - Main package includes 1 user.
  - All Navigator Smart licenses are included in general LEM calculation.
  - During transition from Smart to Navigator Smart, user increment purchases are calculated by transition prices while transiting. User increasement purchases after transition are calculated by new list prices.

### – Payroll Plus

- The number of users for Payroll Plus is 10. In cases where more users are needed, user increase should be obtained.
